Grading Outline

All grammar classes will be graded based on the number of answers in each assignment. Assignments will not be graded on creativity or writing skills, as most of the assignments are technical. Assignments will be graded similar to a test or quiz. For example, if a student must underline ten nouns in an assignment and misses two, the student would receive an 80% on that assignment.

As there are numerous assignments in each lesson, the total number of required answers per lesson will be added up. Any incorrect answers will be subtracted from the score, and the grade will be given accordingly. For example, if there are 50 answers in a lesson, and a student misses 4, the grade is as follows:

$$50 - 4 = 46 \text{ points}$$

$$46/50 = 92\%$$
